

FileMaker 7 Migration Training

Get your solution in shape for FileMaker® Pro 7!

ATTEND THIS TRAINING IF YOU PLAN TO:

- Convert and Modify
- Rewrite
- Use a Hybrid Approach

MIGRATION TRAINING RESULTS:

Be... an expert FileMaker 7 developer.

Know... the available strategies for successfully migrating your solution.

Do... the right thing – implement the appropriate migration methodology for you.

At Migration Training you will learn how to:

- Prepare your solution for conversion
- Identify multiple stable points in the migration process
- Get your solution working as it did before
- Fully understand the power of the new relational model
- Add new features without breaking existing ones

We will work “hands-on” with your solution to:

- Fix file references
- Fix scripts – prevent self-locking
- Repair navigation scripting
- Manage on-open and on-close scripts
- Implement access privilege and security strategies
- Make your solutions “context-proof”
- And more!
